Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Inventorship

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

> (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Patent Number 5,279,085 by DiPaolo et al in view of Patent Number 4,424,893 by Gillet. The covered walkway system disclosed by the '085 patent incorporates a plurality of walkways 13 and corrals 43 that read on the Applicant's central lanes and

entrance lanes, respectively. Furthermore, said system incorporates a plurality of parking spaces S and stops 25 that are located on either side of walkways 13 and read on the Applicant's parking spaces and curbings, respectively. Although the '085 patent fails to specifically disclose a stop area and one end of a walkway, the use of a carriage stop means is well known in the art. The '893 patent teaches a shopping cart retention means that incorporates two rotatable wickets 14 that read on the Applicant's stop area of claim 1 and gate of claim 5. Accordingly, it would have been obvious to one of ordinary skill in the art at the time of the invention to incorporate the wickets 14 of the '893 patent into the walkways 13 of the "085 patent to provide and effective cart stopping means.

Conclusion

The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Patent Number 4,609,183 by Ulmer because of its shopping cart entrance portion BF,

Patent Number 4,236,697 by Savino et al because of its shopping cart guide rails 18, and

Patent Number 2,743,827 by Winokur et al because of its cart guiding channels 60.
